RE: Exit 15 Meeting

Dear Winooski Residents & Property Owners:

As many of you realize, the City of Winooski has been working with the Vermont Agency of Transportation (VTrans) and Federal Highway Administration for a number of years in an effort to get the State to conduct upgrades at Exit 15. The Exit is part of the interstate highway system and as such the State and Federal governments have jurisdiction over the project. The City and local residents had an initial meeting with VTrans in February 2009 to select a preferred design alternative. Since this time VTrans has proceeded with detailed engineering design plans. That process is nearing completion and VTrans is now requesting approval of the final design from the City.

The City Council will be hosting a Public Hearing to review and consider approval of the VTrans final design. The project is scheduled to go to construction in the summer of 2010. If you have an interest in this project, we encourage you to attend. The Public Hearing for this project will be held on **Monday February 1, 2010 at 6:00 pm** at Winooski City Hall.

Thank you and I look forward to seeing you at the meeting.

Steven L. Palmer, P.E.
City Engineer/Public Works Director
